SUMMARY

UI/UX Designer with over 2 years of experience creating functional, visually engaging, and user-focused digital products. Skilled in Figma, UX research, and design systems, with a strong record of improving usability and engagement through thoughtful design. My work has helped increase user engagement by up to 15%, reduce task completion time by 20%, and improve design delivery efficiency within cross-functional teams. I'm looking for a role where I can continue designing meaningful digital experiences for users.

KEY COMPETENCIES

- Team management
 - Information Architecture
 - Critical thinking
 - Excellence selective attention; ability to multitask
 - Effective communication
 - Team Collaboration
 - Stakeholder management
 - Proficiency in Ms Office with a focus on word, excel and PowerPoint
 - Software proficiency such as the use of Figma, Trello, and others.
 - Good client relationship management
-

PROFESSIONAL EXPERIENCE

OJ Solutions Limited

March 2025 - Present

UI/UX Designer

- Collaborated with developers, product managers, and analysts to design user-friendly digital products that met project goals and timelines, increasing delivery speed by 20%.
- Improved usability and accessibility using WCAG standards, which led to a 25% rise in user task success rate.
- Conducted user testing and prototype reviews, identifying 5+ key usability issues and improving user satisfaction metrics.
- Contributed to the creation and upkeep of a scalable design system, ensuring visual consistency across 3 active projects.
- Streamlined design-to-development handoff, reducing review cycles and improving implementation accuracy by 15%.

Tech Opp Africa

May 2024 - September 2025

UI/UX Designer

- Designed and prototyped a responsive Website and E-learning Platform in Figma, increasing user engagement by 15% and reducing bounce rate by 10%.
- Conducted user research and testing across two user groups (students and investors), uncovering insights that improved navigation efficiency by 20%.
- Collaborated with distributed teams across 2 time zones, achieving a 95% on-time project completion rate.
- Improved design consistency and accessibility, leading to a boost in positive usability feedback during testing.
- Designed layouts and flows that enhanced content visibility and led to a 12% increase in returning users.

CRYPTO CAFÉ

May 2021 - Dec 2023

Community manager

- Work closely with other teams such as marketing, product development, and customer support to align community efforts with organizational goals.
- Respond to comments, messages, and mentions in a timely and professional manner.
- Gather feedback from community members to understand their needs and preferences and share with relevant teams.
- Develop and share relevant content to keep the community informed and engaged.

Administrative Assistant

- Prioritize tasks and manage deadlines efficiently to support overall workflow.
- Engage in ongoing professional development activities such as attending conferences and workshops.
- Managing students database/Spreadsheet.
- Assist in administrative tasks related to the department or university as assigned.
- Provide Guidance and assistance to students in their academic pursuit.
- Draft and proofread emails, letters, and other correspondence.
- Schedule appointments, meetings, and events for executives.

SIDMACH TECHNOLOGIES

Sep 2022 – Dec 2022

UI/UX DESIGN INTERN

- Collected and assessed user behavior and high-level needs which led to evaluation and consulting with the product manager, stakeholders, and developers.
- Designed visual user interface elements, including page layout and color palette.
- Utilized my design experience to create wireframes, prototypes, and high-fidelity designs using Figma ensuring we followed industry best practices in UX/UI design, resulting in an amazing user experience.
- Conducted a thorough assessment of user input and analytical data, using these insights to confirm and support the translation of our design principles into a responsive and beautifully designed web layout.
- Designed wireframes, prototypes, and high-fidelity mock-ups.
- Continuously reviewed our designs based on customer input, and established a roadmap for future enhancements.
- Elevated the digital landscape with my useful feedback and thoughts, actively contributing to the ongoing improvement of overall design and user experience across websites.
